

HBB1 Broadband Booster

PACKAGE CONTENTS:

- ◆ One Broadband Booster
- ◆ Easy to follow Users Manual
- ◆ One Ethernet Cable
- ◆ One Power Adapter
- ◆ One Power Adapter Extension Cable

Eliminate the Lag!

The Hawking HBB1 Broadband Booster eliminates the problem of Internet lag in home and work networks. When multiple internet applications such as, VoIP phone calls, streaming video, and online gaming run simultaneously on a given broadband network, internet lag is present as both applications fight for the same amount of bandwidth. The end result is choppy conversations for VoIP calls, dropped or "frozen" frames for video streaming and online gaming lag (unplayable online gaming experience). The HBB1 Broadband Booster solves this using an intelligent engine (*StreamEngine* Technology) to manage and prioritize all data traffic going out of the network for a seamless internet experience. The HBB1 is designed to enhance the playability of online games, maintain VoIP call quality, and improve the performance of all time-sensitive "real-time" internet applications without any configuration by the user. Simply connect the Broadband Booster to your existing network and you're ready to enjoy maximized high-speed performance from your established broadband Internet connection. There's nothing to remove or setup!

The Broadband Booster boosts the performance of many internet applications. This list does not include all applications benefitting from the Broadband Booster.

- Improves the quality of VoIP Phone Calls (Skype, Vonage etc...)
- Eliminates Gaming Lag associated with Online PC Gaming and Console Gaming (Xbox Live, PS2, PSP, GameCube etc...)
- Streamlines Web Cam Video over the Internet
- Seamless Video Conferencing over the Internet
- Improves Video and Sound Quality of Internet Cameras (IP-Cameras)
- Suppresses Lag associated with running Peer to Peer programs (BitTorrent, Kazaa etc...)
- Increased Response time for Local Web-Servers

Features

- ◆ Boost Your Internet Application Speeds by Up to 400%
- ◆ Compatible with all Home or Work Networks (Cable/DSL/Ethernet Based ISP)
- ◆ Great for Networks with more than One Computer
- ◆ Eliminates Lag in Online Xbox, PS2, Gamecube and PC Gaming
- ◆ Plug and Play Installation - No Software Necessary

SPECIFICATIONS:

Network Standards:

- IEEE 802.3
- IEEE 802.3u

Interfaces:

- 1x Internet Port (10/100 RJ-45)
- 1x Router Port (10/100 RJ-45)

Power:

- 5VDC / 1.5A

LED Specifications

- 1x Power
- 1x Internet
- 1x Router
- 1x Boost

Certifications

- FCC Class B
- CE Class B

Warranty

- 2 Years

Dimensions

- 3.9" (L) x 2.6" (D) x 1.0" (H)

Weight

- 5.1 oz

READY, NETWORK & GO!

It's easy to install, it's easy to use! Everyone can do it.

Step 1 - Power off the Router and unplug the ethernet cable.

Remove the ethernet cable that connects your broadband modem to your Router.

Step 2 - Connect the HBB1 Broadband Booster

Connect the Broadband Booster in between your router and broadband modem using the provided ethernet cable.

Step 3 - Power on the Booster

The Broadband Booster will automatically configure itself to your network and you are ready to enjoy a better internet experience.
